Born in June 4, 1982 in Brasilia (Brazil), at age 4 he moved with his family to Ilha do Governador (Rio de Janeiro), where he resided for many years.

Being self-taught, AQI Luciano began his experience art since he was young, encouraged by his family and by his own pleasure of creating.

In his youth, he began his contact with the urban art of graffiti through the dawn of Rio de Janeiro. He began his artistic career in 2006 in Vila Velha, a city located in Espírito Santo state, uniting traits and drawings of his childhood with the attitude and techniques of graffiti.

Very self-critical, searching evolution in an individual dispute, every job has the words: persistence and dedication as the basis for progress, often using the term "graphic artist" for acting in various areas of art, such as paintings, illustrations, designs, among others.

At graffiti, he gained prominence in the works of realism, beyond traditional letters always with a huge range of colors and lines.
